CANADIAN CANCER SOCIETY
DRUMHELLER, ALBERTA

Murray Saunders is a patient in the Drumheller hospital.

Susan Hoivik is a patient in the Holy Cross hospital, Calgary.

We are glad to report Brent Bramley is home again after his recent stay in hospital.

Violet Pattison, Mrs. Elaine Reid, Mrs. Foster, Mrs. George Lévens left on Monday to take in the Ladies Curling Bonspiel in Calgary three days this week.

The Lions held their regular charter night banquet. Several speakers were present, including Zone Commander and District Governor. The evening was then spent in dancing.

BOY SCOUT ACTIVITIES

Last Saturday at 2 p.m. we held our regular meeting. Mr. Isaac, our Scoutmaster, attended a funeral so Bill Mucha (P.L.) headed the meeting until he arrived. Bill put us through marching drill (right wheel, left turn, halt, etc.) and standing drill. O'Grady was played until Mr. Isaac arrived. After he arrived, Bill, Aaron, D.K. and I had signalling practice while the others dealt with the compass.

If headquarters permits, two new recruits, Dale Gimbel and Ronald Fox will become Nos. 9 and 10, so until word is received from headquarters they will attend the regular meetings and begin tenderfoot work.

—Arthur Hoivik.

MORE THAN SKIN DEEP

Skin blemishes are very annoying, especially when they appear on the face, but they should never be scratched. Most skin troubles have a basic cause and may be a warning of ill health, allergies or some skin disease. The doctor is the best authority to diagnose the trouble and prescribe treatment. One safe procedure is to keep the skin clean with mild soap and warm water.

Public Notice Swalwell

By the Board of Trustees of The Drumheller School Division No. 30 of the Province of Alberta.

WHEREAS it is deemed expedient by the Board of Trustees of the Drumheller School Division No. 30, of the Province of Alberta, that the sum of \$105,000 dollars should be borrowed on the security of the said Division by the issue of Debentures repayable to the bearer in ten equal consecutive annual instalments with interest at the rate of not more than six per centum per annum for the following purposes, namely:

—Build a four room addition to the Trochu Valley School.

THEREFORE, notice is hereby given by the Board of the said School Division that unless a poll of the proprietary electors of the said School Division for and against the said debenture loan is demanded as provided by The School Act, the said Board will apply to the Board of Public Utility Commissioners for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

W. P. HOURIHAN,
Chairman.

Dated at Drumheller
this 5 day of March, 1954.

INSTRUCTIONS TO PROPRIETARY ELECTORS IN A SCHOOL DIVISION

A poll may be demanded in a School Division by a demand signed by five proprietary electors of each of at least twenty per cent of the districts in the division.

Every demand for a poll must be delivered to the Secretary of the Division or District or, in his absence, to the Chairman of the Board of Trustees, within Fifteen days after the date of posting or of the last publication in a newspaper of this notice. A certified copy of the demand must be forwarded forthwith to the Board of Public Utility Commissioners of Alberta at Edmonton.

"Proprietary Elector" means an elector, who is liable to assessment and taxation for school purposes in respect of any property situate in a School Division.

FOR SALE—Registered Thatcher Wheat. Crop Certificate No. 5887. Germination No. 73-4712, test 94%. \$1.65 bushel.

Registered Newal Barley. Crop Certificate No. 5885. Germination Certificate No. 73-4712, test 95%. \$1.10 bushel.

Baled Crested - Brome - Alfalfa Hay. 60c Bale.

Will trade for wheat, oats or barley.

—Ralph Brown, Acme.

FOR SALE—3-room House in very good condition, 1½ miles east of Central Service Station. —Contact Mr. Brost at Wright Motors.

There will be a Pink Tea held in the Community Hall on Friday afternoon, March 19th in honor of Mrs. Henry Esau, as the Esaus are leaving the district.

The monthly meeting of the F.U.A. is scheduled for Tuesday, March 23rd at 8 p.m.

Keith Wilson spent a few days in the Three Hills hospital getting over a bad case of bronchitis croup.

The Alberta Wheat Pool Show was well attended. The films were quite good. Talks were given by Mr. D. Kaechele, Mr. Bell and Mr. Blair.

The curling game for the Grand Aggregate was played on Monday night between Mrs. O. Beagrie and Mrs. Gibson, with Mrs. Gibson's rink taking the prize.

TREE PLANTING

March is the month to be making plans and placing your orders for tree planting in 1955. Almost any tree or shrub you desire is available through the Alberta Department of Agriculture. Orders though, must be placed early. Trees may be had for Farm Shelterbelts; Field Shelterbelts and Roadside Plantings. Applications may be filed either with the Field Supervisor or through this office.

WARBLES

This is the time of year when warbles make their appearance. Now is the time to apply control measures. Your Municipality has a sprayer and if a sufficient number of farmers in an area desire to spray their animals, the sprayer will be made available. March, April and May are the recommended months for spraying. Control cuts down on losses. The estimated total loss to Alberta cattle owners from warble fly is over \$2,000,000.00. In a recently conducted survey at least 50% of all Canadian hides were damaged by open or healed grub holes. Responsible for a loss of \$700,000.00.

THE WORK OF MERCY NEVER ENDS

For so long as there is human suffering then so long does the Charter of the Red Cross require to be honoured by the work of mercy. You know the need, and how great it is. Please help generously.

Hunters Relate Experiences As They Receive Trophies

Awards for the largest deer head and the best-formed head of the hunting season were made at the January meeting of the Dauphin (Manitoba) Game and Fish association. Ed Childs is shown above, left, with his token of the chase which was the biggest on display, Townsend, right, is shown with his "best-formed" winner

A shot from the crotch of a tree was the beginning of the end of a six-year battle between Ed Childs and his well-antlered trophy. For that long had Ed been hunting the Rorketon district where the big buck made his home, seeing it, but never getting a good shot away.

Hunting with a party of five, about six and a half miles from Rorketon, Mr. Childs sighted the buck coming directly towards him while he was perched high on a tree-limb.

Quickly summing up the situation, he shouted a warning to his two closest partners; and the air was filled with the sharp report of rifles.

But the buck gained access to a narrow field and fled across it to safety in the heavy bush.

The hunters took up the chase, following the tracks and blood-stains in the snow. The trail faded out but the group managed to circle the wily old buck.

Pulling his rifle to his shoulder, Ed caught the animal nicely in his

sights and one trigger-squeeze was all that was needed to end the six-year battle.

Burley Townsend's buck was one of a pair fighting in the bush who broke up their battle as he ap-

The above picture shows five former deer brought down this winter by members of the association.

proached—but not soon enough. About 11.30 a.m. on the opening day of the season Burley was walking through a narrow pencil of brush when suddenly he heard a crashing in the brush.

Investigating the noise he was treated to a rare sight: not more than 50 yards away were two bucks locked in combat.

Scouting or sensing the hunter, the animals forgot their differences and bolted for cover.

Anticipating the move, Burley shot quickly and had the satisfaction of seeing the larger of the two slump to the ground.

When the Romans conquered Egypt in 26 B.C., they collected part of the tribute in the form of Egyptian glassware. 3079

If You're TIRED ALL THE TIME

Everybody gets a bit run-down now and then, tired-out, heavy-headed, and maybe bothered by backaches. Perhaps nothing seriously wrong, just a temporary toxic condition caused by excess acids and wastes. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys, and so help restore their normal action of removing excess acids and wastes. Then you feel better, sleep better, work better. Get Dodd's Kidney Pills now. Look for the blue box with the red band at all druggists. You can depend on Dodd's. 52

Fiery, Itching Skin Gets Quick Relief

Here is a clean, stainless, penetrating antiseptic oil that will bring you speedy relief from the itching and distress of Eczema, Itching Toes and Feet, Rash and other itching skin troubles.

MOONE'S EMERALD OIL not only helps promote rapid and healthy healing in open sores and wounds, but boils and simple ulcers are also quickly relieved. In skin affections—the itching of Eczema is quickly eased. Pimples, skin eruptions dry up and scale off in a very few days.

MOONE'S EMERALD OIL can be obtained at any drug store satisfaction or money back.

Funny and Otherwise

"What was all the noise over at the Brown's house, last night?"

"Oh, Brown just had some words with his wife."

"Really? Good for him! Usually he just has words from his wife."

Visitor: Your painting astounds me.

Artist: I spent thousands and thousands of dollars studying with the best teachers in order to learn how to paint.

Visitor: I'd like you to meet my cousin.

Artist: Why? Is he an artist too?

Visitor: No, he's a lawyer. He could get your money back.

Gloria: Doesn't Marie have a polished manner of speaking?

Jean: Yeah, everything she says manages to cast reflections on somebody.

In a grocer's shop several people were waiting to be served. Suddenly the cash register went crazy, clicking wildly and ringing up the same amount twice, after which it spun out the tape without a pause.

The assistant stared in amazement, and one customer exclaimed: "Heavens! Prices are too much even for machinery now!"

A recruit was causing his sergeant a lot of trouble. Finally the NCO went up to him and said sarcastically: "Do you realize you are the only one in step?"

"Well," said the recruit, "It's no good telling me—you'd better tell the other fellows!"

Judy: I want a man who is good, handsome, and intelligent.

Trudy: You don't want one, you want three.

He was obviously a novice at boxing and as he entered the ring and saw his hefty opponent he felt far from happy.

As he went to his corner he saw a man with a towel thrown over his shoulder. "Who are you?" he asked.

"I'm your second," was the reply.

A look of relief flashed over the novice's face. "No," he said firmly, "you go first—I'll go second!"

A small-part actor used to haunt his agent's office saying: "Anything doing for me today, Ted?" and Ted would answer, "Sorry, Charlie—nothing doing."

As the weeks went by words became superfluous. Charlie would look in, lift his eyebrows inquiringly, and Ted would shake his head.

This went on for years. Then one day Charlie broke silence. He strode in saying: "Oh, by the way Ted, don't book me for any job during the next fortnight. I've decided to take a holiday."

The TILLERS

—By Les Carroll

First Co-operative Farm In Manitoba Granted Charter

CARMAN, Man.—A group of Manitoba farmers have recently been granted a charter for a co-operative farm—the first of its kind in Manitoba. The farm has been named Valdimere Co-operative Farm Limited, and is situated one mile south of No. 2 Highway at Deleau. The farm is 1,920 acres in size.

Members of the group are Mr. and Mrs. Dan Blatz and Mr. and Mrs. Jake Doerksen of Lowe Farm, Mr. and Mrs. Ken Sisson of Elm Creek, A. Mitchell of Roblin, John Wottan of Basswood and Miss Miriam Atkinson of Winnipeg. Mr. Wottan and Miss Atkinson plan to be married this summer.

Mrs. Blatz is a daughter of Mr. and Mrs. J. K. Loeppky of Carman and Miss Atkinson is a daughter of Rev. and Mrs. H. Atkinson of Carman.

Members of the co-op. farm are selling their privately-owned land

and will move to the new property in the summer. Present plans call for a building program to provide necessary homes for all the families. There is only one residence on the farms at present. The group hope to raise pure-bred cattle, as well as a milking herd, and a laying flock. The usual grain crops will be grown as well as a small acreage of sunflowers.

Several co-operative farms are operating successfully in Saskatchewan, but none has been tried in this province in modern times. Before taking final steps towards organization of the farm co-op., all members of the group made exhaustive studies of past performance records of similar farms in Saskatchewan and much valuable information was obtained. They received assistance in their planning from the Manitoba Co-operative Services department.

The Angel waterfalls in Venezuela are the highest in the world.

Make All Four of these Thrilling oven treats with One Basic Dough!

1. Chelsea Twirls

2. Orange Whirls

3. Date Bights

4. Jam Ring

Versatility begins at home — with Fast Dry Yeast!

One quick dough, thinly rolled, comes out four delectable dessert delights! Raised oh-so tender n' light with amazing Fleischmann's Fast Rising Dry Yeast! When you bake at home, get festive results with Fleischmann's. Never fails. Keep a month's supply on hand.

Needs no refrigeration!

BASIC PINWHEEL DOUGH

Scold

1 1/2 cups milk
3/4 cup granulated sugar
2 1/2 teaspoons salt
3/4 cup shortening

Remove from heat and cool to lukewarm.

In the meantime, measure into a large bowl

3/4 cup lukewarm water

1 tablespoon granulated sugar

and stir until sugar is dissolved. Sprinkle with contents of

3 envelopes Fleischmann's Fast Rising Dry Yeast

Let stand 10 minutes, THEN stir well.

Stir in lukewarm milk mixture and

3 well-beaten eggs

Stir in

4 1/2 cups once-sifted bread flour

and beat until smooth and elastic; work in

4 1/2 cups more (about) once-sifted bread flour

Turn out on lightly-floured board and knead

dough lightly until smooth and elastic. Place in a greased bowl and

grease top of dough. Cover and set dough in warm place, free from draught, and let rise until doubled in bulk. Turn out

dough on lightly-floured board and knead lightly until smooth. Divide into 4 equal portions and finish as follows:

1. INDIVIDUAL CHELSEA TWIRLS
Cream 1/4 cup butter or margarine and 1/4 cup brown sugar; divide into 12 greased muffin pans; add pecans. Cream 2 tbsps. butter or margarine, 2 tbsps. cinnamon and 1/4 cup brown sugar. Roll out one portion of dough 12 by 10 inches. Sprinkle with cinnamon mixture and 1/4 cup raisins; beginning at long side, roll up loosely; cut into 12 slices. Place in pans. Grease tops. Cover and let rise until doubled. Bake at 350°, 15 to 18 mins.

2. ORANGE WHIRLS
Boil together for 3 mins., stirring, 1/2 cup butter or margarine, 1 tbsps. grated orange rind, 1/2 cup orange juice and 1/2 cup gran. sugar; cool. Spread half in greased 8-inch square pan. Roll out one portion of dough 16 by 10 inches, spread with rest of orange mixture; beginning at long side, roll up loosely; cut into 16 slices. Arrange in pan. Grease tops. Cover and let rise until doubled. Bake at 350°, about 30 mins.

3. DATE BIGHTS
Combine 1/2 lb. cut-up dates, 1 cup water, 1/2 cup gran. sugar and 1 tbsps. butter or margarine; boil gently, stirring often, until thick; cool. Roll out one portion of dough into 12-inch square; spread half with half of filling and roll up to centre. Turn dough over; spread remainder with filling and roll up to centre. Cut into 12 slices. Place, well apart, on greased pan. Grease tops. Cover and let rise until doubled. Bake at 350°, 14 to 16 mins. Spread hot buns with icing.

4. JAM RING
Roll out one portion of dough 16 by 8 inches. Spread with 1/2 cup thick jam and 1/2 cup chopped nuts; beginning at long side, roll up loosely. Twist dough from end to end; form into ring on greased pan. Grease top. Cover and let rise until doubled. Bake at 350°, 25 to 30 mins. Spread hot ring with white icing; decorate top.

Better Health For Children Achieved By U.N. Agency

By Richard S. Bloch
(CPC Correspondent)

A child in Afghanistan is suffering from typhus. Another in Burma is weak from malnutrition. A boy in Egypt has trachoma. There are many children in the far-flung areas of the globe who are suffering from illness which they or their parents find difficult to understand.

Helping them in the fight against these and other diseases is the World Health Organization, a specialized agency of the United Nations, which considers the promotion of child health as one of its primary tasks.

In India, for example, a program to stamp out tuberculosis from the land has been undertaken by the government with the technical assistance of the World Health Organization and material help from the United Nations International Children's Emergency Fund.

In Delhi, the capital of India, over 150,000 school children were given BCG vaccination against tuberculosis. Teams from neighboring states as well as from Delhi spread over the city testing and vaccinating as they went along.

One of the outstanding results of the Delhi drive, in the minds of WHO officials, has been to focus public attention on BCG vaccination and to help in gaining an even wider acceptance everywhere in the country of this new and powerful weapon.

In 1950, 77 out of 100 children in the Himalayan Terai were victims of malaria. This dread disease no longer hangs menacingly over the people. The Indian government, with the aid of WHO and UNICEF, took up arms against this ancient enemy which causes weakness and lethargy in its victims and often proves fatal.

Mass examinations were made to determine the extent of the disease. The kinds of mosquitos responsible for spreading the malaria were identified. With this information the spray pumps and DDT were put into action and soon the results were felt. The next year only three out of 100 children had malaria and today the disease is under man's control.

The WHO, on request, sends demonstration teams composed of doctors and public health nurses to work with the government and local health authorities in showing communities how to set up and maintain maternal and child health service.

In attacking the infant mortality rate (some countries have a rate of 200 deaths per 1,000 live births) WHO not only attempts to control specific epidemic diseases, but also to improve sanitation, nutrition and the general standard of living in all parts of the world.

In Cambodia, French Indo-China, for instance, because of a successful demonstration project, plants have been prepared for health centres, pediatric ward, nursing and midwifery schools. A program for maternal and child health was begun in Formosa and assistance in the care of premature infants is being planned for Japan.

In another part of the world demonstration centres for mater-

—Central Press Canadian.

A WHO nurse makes a visit to a river village in Borneo

nal and child health have been opened recently in Beirut, Lebanon; in Damascus, Syria; and in Peshawar, Pakistan. Plans are made for centres in Baghdad, Iraq; Dacca and Karachi, Pakistan; and Teheran, Iran; Libya and Jordan.

Whether it's a call from Chile for "iron lungs" to help polio vic-

tims breathe, an appeal from India for technical assistance in stamping out malaria, or a request from Formosa for a child health demonstration program, the World Health Organization will face the challenge. Its officials know that the peace of the world tomorrow is dependent upon the health of its children today.

:: GEMS OF THOUGHT ::

BENEVOLENCE

The most acceptable service of God is doing good to men.—Benjamin Franklin.

To pity distress is but human; to relieve it is Godlike.—Horace Mann.

The selfish wish to govern is often mistaken for a holy zeal in the cause of humanity. — Elbert Hubbard.

No quality is rarer than true benevolence; even those who imagine they possess it are generally merely of a weak or complaisant nature. — La Rochefoucauld.

The human affections need to be changed from self to benevolence and love for God and man; changed to having but one God and loving Him supremely, and helping our brother man. — Mary Baker Eddy.

Benevolence is man's mind, and righteousness is man's path. — Mencius.

Indian Settlement Subdivided Into Small Townsite

REGINA. — An area which for many years has been settled by Indians and Metis has been subdivided into a small townsite by the Surveys Branch of the Department of Natural Resources.

In making the announcement, A. I. Bereskin, Controller of Surveys for the Department, said the townsite is called Sakamayak and is situated four miles south of Beauval on the Beaver River, 70 miles northeast of Meadow Lake.

Mr. Bereskin said the plan of survey will set the pattern for the orderly development of the community. The average lot in the townsite is 100 feet by 150 feet, which provides ample space for gardens while at the same time providing sufficient spacing of dwellings to localize damage due to fires.

In addition to roads and streets, 35 lots and a public reserve were laid out in the survey of the community.

On The Side - By E. V. Durling

It has been said the majority of women history has recorded as great charmers of men had eyes of a color that lingered between gray and green. Character analysts say women with that eye-coloring are the most intelligent. They are also reported very difficult to break into matrimonial harness. In fact, most green-eyed women dominate their husbands. There have been songs about blue-eyed girls, brown-eyed girls and black-eyed girls, but so far nobody has originated a ditty about a green-gray-eyed girl. How about one titled "The Lady With the Green-Gray Eyes?"

Three Hats In One

Note a reference to a woman purchasing three hats. "One to please men," "one to make other women envious" and "one to please herself." Seems a clever woman could do all that with one hat. That is, a hat that pleases men and attracts their attention. A hat like that would make other women envious. Having a hat that pleases men and makes females envious would please the wearer herself. So, buying two more hats would be unnecessary. Call this to the attention of your wife and save the price of two hats. Perhaps some clever milliner could design a chapeau called "The Three-In-One Hat." Or, perhaps, calling it "The Triple Threat Hat" would be better. Incidentally, watermelon red is the color in a hat that most attracts male attention. Or, so says a color psychologist.

Women Executives

Nine out of 10 women would rather work for a man than a woman. As executives, women are definitely not popular with their own sex. Why? Feminine employees maintain that as soon as a woman is given authority it goes to her head. She becomes conceited. Usually, unbearably so. A woman executive in her dealings with a woman employee becomes too personal in her criticism. She not only criticizes the employee's work but remarks on the way she dresses, her use of make-up, the way she fixes her hair, etc. It is also claimed women executives have no sense of fair play. Incidentally, in defending themselves, the feminine executives say the trouble with women employees is that they are so envious of an executive of their own sex they just can't bear to work for her.

About Korfball

Ever see a game of korfbal? Neither have I, but am looking forward to viewing such a contest. Korfbal, a European sport, is somewhat similar to basketball. However, a korfbal team is made of six men and six women. If you had a korfbal 12 in your neighborhood, your wife could play on the same team with you.

Hatching An Ostrich Egg

Ever hear of a man hatching an egg? It has happened. An ostrich egg at that. Seems an ostrich on the South African farm of an agriculturist named Guy Sttrydam ran away and left an egg behind. Mr. Sttrydam decided to hatch it. During the day he kept it warm in an oven. At night he took it to bed with him. Then one morning the egg began to move and soon a baby ostrich emerged. Its proud owner and substitute mother named the bird Oswald. It said Oswald is the first ostrich in world history to be born in bed.

Sweden and Ireland

In Sweden, when a young man marries, the government will lend him, without interest, enough money to buy a house and furnish it. . . . An Irish dress designer with an international reputation is a rarity. However, Sybil Connolly of Dublin is reported giving Dior, Fath, Lanvin and Mainbocher a bit of competition.

Ticklers

—By George

"My parents nag me. I'm sick of school. I'm bored with TV. I'm going to volunteer on the first rocket ship to the moon!"

Orange Marmalade Glamorizes Bread Pudding

BY DOROTHY MADDOX

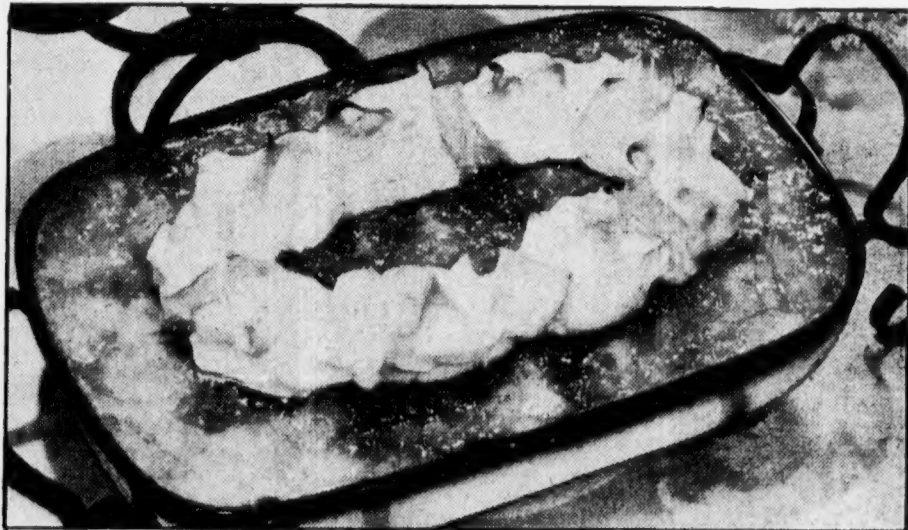

HERE'S a new-fashioned way to make a better and quicker bread pudding than grandmother ever hummed a tune over. What's so good about it is that it's made with either sweet or bitter orange marmalade as the main sweetener.

It's easy to make, and doesn't require any extra shopping if you have bought and kept a few tumblers of either sweet or bitter marmalade on your pantry shelves. The other ingredients, such as day-old bread, eggs and milk, etc., are always with you. Topped with a frothy cloud of sweetened meringue, this pudding is handsome enough and special enough even for a party.

Orange Marmalade Bread Pudding (Makes 6-8 servings)

Three eggs, separated; 4 cups milk, scalded; 2 tablespoons butter or margarine; ½ cup orange marmalade, sweet or bitter; ½ cup sugar; ½ teaspoon vanilla flavoring; 5 slices day-old bread, cut in 1-inch squares; ¼ cup sugar.

In a large bowl, beat 3 egg yolks and 1 egg white. Reserve remaining 2 egg whites for meringue. Gradually stir in milk, blending well. Then stir in butter, ½ cup of the orange mar-

Orange Marmalade Bread Pudding adds zip to party dinner and is easy to make.

malade, ½ cup sugar, salt, vanilla and bread; mix lightly but thoroughly.

Pour mixture into a buttered, 1½-quart baking dish. Set baking dish in a pan of hot water. (The water should come within 1 inch of the top of baking dish). Bake in a moderate oven (350 degrees F.) 45 to 50 minutes, or until a knife inserted near one

side of the pudding comes out clean.

Remove baking dish from the oven. Turn oven regulator to hot 425 degrees F. Spread top of pudding with the remaining ½ cup of orange marmalade.

To make the meringue: In a bowl, whip two egg whites until they form soft peaks. Add ¼ cup sugar, a tablespoon at a time,

whipping after each addition until the mixture is glossy and forms stiff peaks.

Spoon the meringue over the pudding in a circle or oval shape. Put baking dish in the pan of hot water and bake about 5 minutes, or until the meringue is lightly browned. Decorate meringue with additional orange marmalade. Serve warm.

HERE'S HEALTH

Toting all that extra lard
Makes your heart work
extra hard.
The Reaper will come
soon enough--
But sooner still if still
you stuff.

Dept. of National Health and Welfare

Canaries rarely live more than 25 years. 3079

World Happenings In Pictures

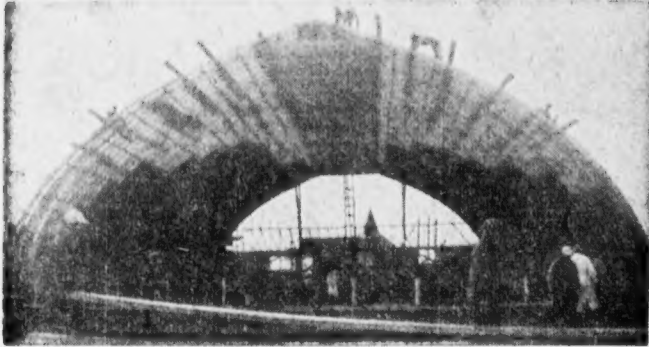

* * * *

COMMUNITY EFFORT—Everybody in and around the town of Bromhead, located in south-central Saskatchewan, had a hand some place in the construction of the Bromhead Memorial Rink. Large crews of men worked long hours with no pay, and now can look upon a completed building something to be proud of. Pictures below show the various stages of construction:

TAKING SHAPE—After the rafters had been put up the roof was covered with sheets of plywood, a part of the work that went quickly.

NEARING COMPLETION—When the main structure was nearly closed in the men turned their attention to finishing work, adding the waiting room part of their rink.

COMPLETED BUILDING—It contains a full-sized skating ice, and one sheet of curling ice. The new building replaces a former structure built in 1927.

STRONG-BOX SAVED THOUSANDS IN BREAK-IN—Safe-crackers recently peeled the door off the safe in the Alton, Manitoba, Co-op Store and absconded with \$19.00 in small change. Most of the change taken, however, had been rifled from three cash registers, while some \$25.00 had been scattered on the floor around the safe. The thieves were apparently after larger loot contained in an inside compartment of the safe, but were unable to force the inside door. Store officials were reluctant to divulge the exact amount contained but stated it would run to several thousands in cash and cheques. Examining the rubble around it is Constable Mike Stewart, who started his duties as Altona's town constable that same morning.

—Photo courtesy of The Altona Echo
FIRE DESTROYS PAINT SHOP—The picture above shows the destructive fire that gutted Hiebert's Paint and Body Shop at Alton, Manitoba, recently. Spectators are seen shovelling snow onto the building during the interval between the exhaustion of the first water source and running out the hose to an old hospital dug-out.

SOME SOMBRERO—Joan Beard of Chicago, Ill., models the latest in noninflammable headwear. Designed to attract butts at any gathering, the black sombrero ash tray has a removable centre that serves as a cigaret depository. It was recently shown at the Chicago Merchandise Mart gift show.

PAUL GALAND, an 18-year-old British Queen's Scout, who has been told he must resign from the Boy Scouts because of his recent appointment as secretary of the West of England Young Communist League.

The Greek word anthrax, meaning coal gave us our word anthracite.

Easy Does It!

In No Time At All You'll Have These Patterns Whipped Up Into Smart Garments

4521
SIZES
6-14

by Anne Adams

Just wrap and tie! No fitting problems—bow cinches waist. No pressing worries—opens flat. Make this sew-easy jumper in corduroy, winter cotton or wool. Make two versions of the simple-blouse—short and ¾ sleeves.

Pattern 4521: Girls' Sizes 6, 8, 10, 12, 14. Size 10 jumper, 3½ yards 35-inch nap; blouse, 1½ yards 35-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

4507
2-10

by Anne Adams

EASY does it! Whip up these simple-sew separates in a jiffy—daughter will mixmatch them from now through next Easter. Blouse, open-flat jerkin, dirndl skirt—pretty, practical in cotton, wool, corduroy, or velveteen.

Pattern 4507: Children's Sizes 2, 4, 6, 8, 10. Size 6 skirt, 1½ yards 35-inch fabric; jerkin, ¾ yard; blouse, 1 yard.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

NEW PLAN OF ASSESSMENT FOR WINKLER TAXPAYERS

ALTONA, Man. — After this year Winkler taxpayers will pay their taxes on an assessment made by two assessors from the Provincial-Municipal Assessment Branch, who are currently making a close check of all town properties. Gone will be the privilege of griping about the local assessor "who had it in for me."

4678 12-20; 30-42

by Anne Adams

Look poised and pretty from morn to night in this crisp beauty! It's a STEP-IN—your favorite easy-entrance style! Details are smooth, simple. Sewing is a cinch. We suggest you choose rayon gabardine, wool, or cotton for a dress you'll wear and wear.

Pattern 4678: Misses' Sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3¼ yards 39-inch.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

7353

by Alice Brooks

101 USES for this beauty of a basket! A wonder for serving fruit, bread, rolls, cake! Easy, fun to crochet in pineapple design.

Crochet Pattern 7353. Stiffen with sugar starch. 6x10 inches in straw material or 3 strands Mercerized Crochet cotton.

7084

by Alice Brooks

She'll love sewing if you start her off on this special children's pattern. It's a wardrobe for her favorite 8-inch doll—use scraps!

Few pattern parts, simplified directions a child can understand! Pattern 7084 has pattern parts for wardrobe to fit 8-inch dolls.

7031

by Alice Brooks

Use scraps—the gayer the prettier! This apron is Sew-Easy—jiffy to embroider—the love of your home life! Make two—bib apron for cooking, half-apron for serving. Smart gift for a bride!

Pattern 7031: pattern pieces, embroidery transfers.

Big Game Seen In Mountains

MACLEOD, Alta. — Floris Lemire, looking out of his room window in the Greenhill hotel in Blairmore, saw three moose and seven deer on the foothills quite close to the buildings. This is unusual, particularly as moose are so seldom seen in the mountains west of here. Floris says he wasn't "seein' things," they were real enough—not pink elephants or anything of that kind.

Kitchen Meditations By JANE DALE

OTHER PEOPLE'S CHILDREN

She has children—year after year. All kinds and sizes. Yet no medal is given to her. And no extra prizes. She must get tired of winey voices, Grubby hands and noisy feet; Must get tired of reading stories; Always saying, "be clean and neat!" Still she loves them; the good, the bad. She hates to see them go—Out of her class into another, As year by year they grow.

Drayton Valley To Be Developed Into Model Town

Drayton Valley, an unincorporated hamlet of half a dozen buildings a few miles northwest of Buck Lake, will be developed into a model town to serve the new Pembina oil field, it was announced by Hon. E. C. Gerhart, Minister of Municipal Affairs.

The hamlet is situated on the North Saskatchewan river 60 miles southwest of Edmonton, and is now the jumping off place for the oil field, at the end of a narrow dirt road.

Mr. Gerhart said it would be given sewer, water and telephone service and development under the direct supervision of his department.

"We expect Drayton Valley to become Alberta's newest major population centre, but we want to see it develop along modern town planning principles," Gerhart said following a visit to the district.

Streets will be laid out by government surveyors and no construction will be allowed until building permits have been issued.

Newcastle Strikes B.C. Poultry Flock

A large poultry flock at Victoria, B.C., has been quarantined for Newcastle Disease, reports the Health of Animals Division, Ottawa. The disease first appeared in the mature laying flock numbering approximately 2,800-2,900 birds. The owner attempted to protect his broiler flock of 4,000-5,000 birds by vaccinating the one-week and four-week-old chicks. Apparently the disease was already in the broiler birds in the incubative stage since in the younger birds the mortality was quite heavy. The flock is being kept under quarantine until it returns to normal health. In the meantime the owner will be permitted to market any apparently healthy birds if he desires, without compensation.

Do You Know That . . .

Wild geese in migration post sentries when they feed.

Hawaii is sometimes called the "crossroads of the Pacific."

Ten Word INTELLIGRAM

Check correct word.

1. There are (5) (6) players on a regulation hockey team.
2. A publican is an (innkeeper). (wine maker).
3. A male seal is called a (sealer) (bull).
4. Whisky (will) (will not) age in a glass container.
5. The Audubon Society protects (bird life) (insurance brokers).
6. Treacle is (seaweed) (molasses).
7. Peru was once ruled by (Aztecs) (Incas).
8. A furlong is a measure of (time) (distance).
9. Nancy Hanks was the (mother) (wife) of Abraham Lincoln.
10. (Africa) (Europe) is the larger continent.

Check your answers, scoring yourself 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

PRISCILLA'S POP—Ask Any Grandma —By Al Vermeer

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

Snapping Out Of A Basketball Scoring Slump

Sometimes a player finds that for no apparent reason his shooting accuracy, which he figured was going great guns, suddenly goes all to pieces. He begins to feel that he couldn't sink the ball, even if he got on top of the basket and dropped the ball. If this happens to you remember these things.

(1) Check to see if you "tighten up" and are shooting with tight muscles.

(2) Watch carefully and see just how you are missing—ask yourself, "Am I shooting too much to the left of the basket or the right? Am I shooting too high or too soft?" By doing this you will discover what to do to correct your error.

(3) Make sure you check up on your "fundamentals." Most players acquire incorrect habits as they play and unless they go back and look to see if their fundamentals are still being performed correctly, their skill will continue to lessen.

Tests show that every time a player (even a great star) stages a check-up as suggested, his play shows definite improvement for the next few weeks. So, don't forget—check on your shooting

fundamentals at regular intervals. This same idea works equally well with regard to your passing, dribbling or any other part of your game.

Watch the Puck

Many offensive opportunities are lost when the player fails to keep his eye on the puck. Since the puck can move so quickly from one place to another, unless the player has his eyes on it he may well lose a golden opportunity. As long as the player is watching the puck, he is in a position to make the right move when it changes possession.

Eat Right To Play Better

The whole body is nourished by the vital elements it takes in. It is very important that everyone should eat properly but it is especially so for the athlete because he must function at a higher physical level of efficiency than the average person. The athlete who eats properly will not only function better but will establish a habit pattern of good nutrition that will have a lot to do with his continued good health and longevity when he is through with competitive activity.

Traffic Blight In Canadian Cities Has Become National Problem Second Only To National Defence

Traffic blight in Canadian cities has become a national problem ranking second only to national defence, C. W. Gilchrist, managing director of the Canadian Good Roads association, told members of the Nova Scotia Road Builders' association at their annual meeting held at Halifax recently.

The pile-up in cities and on their approaches is one of the worst aspects of city living today and it threatens to become even worse. Since the end of the war the number of cars and trucks on roads and streets has increased from less than 1.5 million to 3.5 million at the end of 1953.

"The vast majority of these," he said, "crowd into the cities, where we are trying to pour a quart of vehicles into a pint of streets."

No major structural improvements have been made to the streets of Canadian cities for many years, said the speaker, and the handful of traffic engineers in Canada is fighting a losing battle against the rising tide. Municipal governments, with inadequate tax revenues of their own, are forced to turn to other governments for assistance or levy special taxes for street reconstruction.

Because traffic is steadily freezing up and road transportation becoming slower, more expensive and more frustrating, the world will probably never see another city the size of New York, Mr. Gilchrist forecast. There is evidence already that traffic congestion is choking the heart of larger cities. In Montreal shoppers are going to the outlying areas to do their shopping because they can find parking facilities more readily. Mid-town merchants have expressed anxiety that if this trend continues it will affect their business and ultimately result in lower real property values.

Large post-war building programs have added to and greatly improved provincial highway systems. Mr. Gilchrist said. Provincial budgets for roads now total about one-third of all provincial government expenditures. Provincial expenditures for roads now total more than all the expenditures of the provinces during a pre-war year.

Last year the provincial road departments had a record year and it is expected that the current year will be near record levels, though a slight dropping off in the over-all total of expenditures is anticipated. It is expected that there will be a leveling off in wages and material costs. The steady rise in these

ANSWERS TO QUICK QUIZ

ANSWERS: 5. Radios 96 per cent., powered washing machines 82 per cent., mechanized refrigerators 66 per cent. 3. About 5,000,000 tons. 1. In Quebec, the Saguenay. 4. Saskatchewan meant swift current. 2. About one dollar in four.

Camrose Wants Status Of City

Camrose, Alta., Town Council will study at once the possibility of applying for a charter as a city, according to Mayor R. H. Hume, speaking at the recent ratepayers' meeting.

A report in the Camrose Canadian quoted Mayor Hume as saying that the present population was 5,365 persons. He also said that the Provincial Government informed the Town some time ago that just as soon as they passed the 5,000 population mark they could apply for a City Charter. This was disregarding the fact that the City Act requires a population of 10,000 now before a town can be granted a city charter. Camrose was granted the concession because they applied for a charter before the act was changed.

Camrose can secure its city status by January, 1955, and, according to Mayor Hume the new Council will be taking the matter up at once.

WEEKLY BIBLE COMMENT

THE MEANING OF GLORIFYING GOD

What does it mean to glorify God and live in His Glory?

One dictionary says glory is "distinguished honor or ornamentation; exalted reputation; praise; splendor of state; the quality of being radiant; luster; the bliss of heaven; a halo."

These dictionary definitions seem to be derived from the Bible. In the glorifying of God almost all the dictionary meanings are present, but chief among them is the quality of honor.

To glorify God is to honor Him. And what does honoring God mean? It is quite possible that honor means very much in relation to God what it means in the lesser things of life.

In ordinary, mundane matters we speak of "honoring" a check, or a note. This implies that we accept full responsibility for it as ours.

To honor God is to accept Him, to take His love and His will into our lives, to become responsible to Him for our character and ways.

Honoring God is something more than reverence or obedience. It is a false notion that represents God as a great potentate, sitting on a throne in gorgeous garments.

It is false to represent God as being ready to wreak His vengeance and authority upon His subjects if they do not fall down and offer their abject devotion.

The likeness of God to earthly sovereigns has been overdone. It is a false and misleading conception.

To glorify God is to accept Him and what He offers, and to become like Him in creative life and acts of love and good will.

"Here is my Father glorified," said Jesus, "that ye bear much fruit; so shall ye be My disciples."

Cantons are the names given to the states in the Swiss confederacy.

Garden Notes

For Amateur Gardeners

Planning

In planning a general layout small or large, there are some good general and fundamental rules to keep in mind. First of all we should know something about the final height of the flowers, shrubs and trees and in general keep the smaller things in the front, so all may be seen. Color and time of blooming should be noted to prevent clashes, though nature can mix these things more pleasingly than can man. But more serious than color clashing is no color at all. By checking with the seed or nursery catalogue for the time of blooming it is possible to have a succession of flowers from the earliest snow drops in the spring until the last chrysanthemums in the fall.

Another general rule mentioned previously is to avoid straight rows wherever possible with flowers and shrubs but rather to plant in clumps of two or three of each type and more, of course, with smaller things.

The 1954 Models

Plant breeders are constantly striving to give us something new and different. This year for instance there is a new fire colored Zinnia and last year appeared a dwarf Alyssum, a purple in color and an excellent contrast with the normal white. There are also new and better beans, corns and other vegetables. The person who wants to get the most out of his garden is advised to add some of these flowers and vegetables each year. They will add interest and satisfaction. All and more are listed in the Canadian Seed Catalogues for 1954.

Back Savers

The man who first thought of the long handle should have a monument erected in his honor by the gardeners of the world. With

HORTICULTURAL SHORT COURSE TO BE HELD AT UNIVERSITY OF MANITOBA

The annual Horticultural Short Course will be held at the University of Manitoba, Fort Garry, March 8 to 13, it is announced by E. T. Andersen, Associate Professor of Horticulture in the Division of Plant Science.

Of special value to new home owners, the course is expected to appeal to all men and women interested in any phase of gardening, Prof. Andersen states.

The course will deal with vegetable, fruit, ornamental and shelter plant problems. Discussions by well known authorities will be included on insect and disease control problems. Soils and fertilizers will also be discussed.

Natural color slides will be used to illustrate many subjects including the planning and landscaping of home grounds and gardens.

Lectures and demonstrations will be given by members of the staff of the Experimental Station, Morden; the Laboratory of Plant Pathology, Winnipeg; the Winnipeg Public Parks Board; Extension Service and University Faculty of Agriculture.

Copies of the program are available from the Division of Plant Science. Registration is scheduled for the forenoon of March 8 in the University Administration Building.

some jobs like thinning tiny plants or getting the first and closest weeds removed in both flower and vegetable gardens it is necessary to bend one's back. But a long handle on rake, cultivator, spade or other tool will eliminate much of that painful exercise. Specialized tools will also banish much drudgery, things like D-shaped Dutch hoes, three and five-pronged, hand cultivators, wheel hoes for larger gardens, small tractors, wheel barrows, leaf sweepers, power lawn mowers, sprayers, scythes and so on. Much of this equipment will cut hand labor as much as 90 per cent. Keeping it sharp and clean cannot be over-emphasized. One can work twice as fast and with half the effort with a sharp cultivator or hoe.

Bulletins Will Help

Provincial and Federal Departments of Agriculture also publish much literature which will greatly help. Much of this comes in the form of bulletins, usually free for the asking. These bulletins are non-technical and are crammed with valuable hints about the special likes and dislikes of flowers, vegetables, shrubbery, trees and vines. There are others that deal fully and simply with special jobs, like the construction of hot beds or cold frames, the purpose and handling of commercial fertilizers, sprays and dusts, and the control of weeds. With all this information so easily available one can soon become an expert.

Quick Canadian Quiz

1. In what province is there a river 800 feet deep?
2. What proportion of Ottawa's tax revenues come from personal income taxes?
3. In 1946 Canada produced 2,252,000 tons of steel. How many in 1953?
4. The word Saskatchewan meant what in the original Cree?
5. What percentage of Canadian households have radios, powered washing machines, mechanical refrigerators?

OUR COMPLETE SHORT STORY—

ROMANTIC MAN

By Fred Gordon

"THIS is certainly a fine home you have here, George," I said. "A neat, cozy little place." I smiled at George's wife, Mrs. Wallace, and said: "I'll bet you're in love with it." She gave me an agreeable smile and suddenly jumped to her feet.

"Oh, please excuse me," she gasped excitedly, "I forgot all about my roast. A few more minutes and you men wouldn't have had any meat tonight. I had better take a look!"

I called after her as she walked to the kitchen, "Better make that roast good, Mrs. Wallace—meat's a treat to an old bachelor like me."

George walked over to a tall maple cabinet and took out some prized liquor. "Here 'yare, Harry. A little appetizer." He filled two small glasses and gave me one. I raised mine and touched it to his. In that small moment, with our glasses together, a warm fire's shadows playing on George's face, a strange feeling came over me. Here was George, my closest boyhood chum. This home was his, this warm fire, all the security and happiness it suggested—and that pretty, amiable woman in the kitchen, his wife. And what did I have? Nothing. A happy-go-lucky life, perhaps. But that was all. None of the world of George Wallace.

Our glasses tinkled against each other. "To Mrs. Wallace," I toasted.

"To the girl who stood on the street-corner in the rain," he returned.

We downed our drinks and a warmth, a comforting heat, spread inside of me. "You so-of-a-gun," I laughed, setting easily in a plush chair, "picking up a girl on a street corner, in the rain, and making her your wife! Good old George Wallace—always the romantic man!"

George laughed. "I'll always remember that night," he said dreamily. Pictures, old scenes were coming back to him from the

depths of his mind, from a safe in which they had been treasured years ago. "I'll always remember," he repeated. He lit a cigarette and offered me one. For one full minute we sat there, smoking; George in thought, and I awaiting the words.

His eyes were fastened to the jumping red tongues of the fire. "Was raining like it never rained before," George began. "One of those nights, you know. It just seems to rain and rain until you think it'll never stop."

"That night must have been back a good many years, Harry. More years than either of us old codgers would like to recall. Still, every little thing about it is as plain to me today as it was then, when it all happened."

"Some fellas will tell you about love, how it comes, about mutual understanding, and all that. Don't believe it, Harry; when it hits you, I can tell you—yes, even for the old duck that I am—when it comes, you know it. And when it comes, it stays."

He watched his cigarette smoke climb to the ceiling.

"I was standing on that street corner, shivering in the rain, when I saw her. We stood there, saying nothing, for a minute—just looking and feeling something happen. A million thoughts came to me then, crazy things, and I start building dreams—real castles—before I even heard her speak, or before she even spoke to me. Maybe she thought I was batty, I don't know, just standing there getting drenched, and looking at her."

"What was it I said first. Oh, yes, 'Little wet out,' I said. When I saw her voice I knew. It was music, music."

I smiled. "You're just a romantic guy," I said.

"Well, sir," George went on, oblivious of me, "we got on a street-car and rode up and down the line that night. Crazy kids we were, hour after hour—talking to each other on a street-car, looking out into the rain and dreaming . . . I'll always remember it, Harry; every little word we said . . ."

Suddenly he stood up, crushed his cigarette in an ashtray, and gave a hearty yawn. "You're right," he said.

"What do you mean?" He laughed. "I'm just a romantic old fool . . . How's the dinner coming, honey?" he called. "All set, boys. Come and get it."

We sat at the table chatting lightly. "This is really some dinner, Mrs. Wallace," I said. "Roast supreme!"

"It's lucky I came back to the kitchen on time," she said. "I just saved it."

I smiled. "Well, it certainly turned out beautifully."

I nudged Harry and said, "With meals like this, a fine home like this—well, it must have been a lucky star that made you two meet on the street-corner in the rain, eh?" I chuckled.

"Street corner? In the rain?" Mrs. Wallace returned, half-smiling. "Why George and I met at a party!" She beamed on George. "Didn't we, dear?"

George said, "That's right. I'll never forget it . . ."

Swift Current Girls Appear In TV And Rodeo Shows In U.S.

Carmel Gowan

Shirley Gowan

SWIFT CURRENT, Sask. — When Carmel and Shirley Gowan, daughters of Mr. and Mrs. Nels Gowan, well-known farmers of the district south of the city, threw a few things into their suitcases and headed for California on December first, their intention was to spend a nice quiet holiday on the sun-lapped beaches of that winter playground. But through the intricacies of fate, that holiday has turned into a series of TV and rodeo appearances that has put the girls' photographs on many of the big dailies in Southern California and Arizona, and has caused them to be booked for appearances at the Silver Spurs Rodeo at Yuma, Arizona, as "Canada's Only Lady Trick-Rope Artists".

Their first appearance on television saw them working on the same program with such film stars as Wild Bill Elliott, Boston Blackie and Buddie Baer. Folks watching this big polio-benefit show were so impressed with the Swift Current artists that their act was stretched out to a half-hour, something the local papers said was "very unusual". The director of the Silver Spurs Rodeo watched their performance and went around to the studio and signed them up for the big Yuma show. He also persuaded them to run in the Queen of the Rodeo contest which, as it turned out,

was won by a young lady from Hollywood.

Since then, according to telegraphic reports sent their father, they have made several other TV appearances. The one they liked best was one which featured the Sons of the Pioneers and in which vocalist Neil Manville sang Ragtime Cowboy Joe while centred by the twirling rope in the hands of Carmel.

Twirling ropes have brought the girls fame "down under", but Carmel has made a name for herself in still another pursuit — that of archery. At a meet in Yuma she captured the trophy emblematic of the women's championship. Not bad for a girl off the Canadian prairies where archery went out with the last Indian uprising!

The Gowan sisters appear to have really captured Yuma. In their spare time they have been engaged by the school authorities to give roping lessons in schools in the Yuma area.

Carmel and Shirley are self-taught ropers says their father. Starting at a tender age, they were good enough to make public appearances when they were 12. In 1946, Carmel led the New York State Firemen's Parade at Saranac, New York, while the sisters were going to school there, and, later, appeared at the Ormiston, Quebec, stock show.

AT WETASKIWIN

Curlers Fed-Up On Weatherman — Plan Artificial Ice

WETASKIWIN, Alta. — Exasperated over the disruption of recent curling seasons by the weatherman, members of the Wetaskiwin Curling Club at a general meeting launched a move which they hope will lead to the installation of artificial ice in their six-sheet building before next October 1.

The meeting was attended by more than 55 members.

Even before the examination into financing had started, however, it appeared inevitable that the move would mean steeply increased membership fees.

Jack Pike made the motion to have the executive inquire into the cost of installing artificial ice for curling, and it was seconded by Jack Rix.

The members also approved a motion that membership shares be sold for \$100, that curling fees for those holding membership shares be \$25, and that fees for others be \$35.

The ancients named the planet Mars after the god of war because it is fiery red. Mars' diameter is about half that of the earth.

Helps You Overcome

Itching of Piles Or Money Back

You do not have to be tortured and embarrassed by the itching soreness and burning pain of piles any longer. Here is real help for you.

Get a package of Hem-Roid, an internal pile treatment, at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.59 for the big 60 tablet package. If you are not 100% pleased after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund agreement by all drug stores.

Jam Upside-down Shortcakes

Combine 1 tbs. soft butter or margarine, $\frac{3}{4}$ c. thick jam; 1 tbs. lemon juice and, if desired, $\frac{1}{2}$ c. broken nutmeats and divide between 6 greased individual baking dishes. Mix and sift twice, then sift into a bowl, $1\frac{1}{2}$ c. once-sifted pastry flour (or $1\frac{1}{2}$ c. once-sifted all-purpose flour), 3 tps. Magic Baking Powder, $\frac{1}{2}$ tsp. salt, $\frac{1}{2}$ tsp. grated nutmeg and $\frac{1}{4}$ c. fine granulated sugar. Cut in finely 5 tbs. chilled shortening. Combine 1 well-beaten egg, $\frac{1}{2}$ c. milk and $\frac{1}{2}$ tsp. vanilla. Make a well in dry ingredients and add liquids; mix lightly. Two-thirds fill prepared dishes with batter. Bake in a moderately hot oven, 375°, about 20 minutes. Turn out and serve hot with sauce or cream. Yield — 6 servings.

Always Dependable

When Disaster Strikes Red Cross Is Ready

THINGS were going along pretty well with this boy's family. They had a snug little home on a $\frac{1}{4}$ section which was almost paid for, the family was looking forward to the time when they could afford a luxury or two. Then the wind came—the results of years of toil wiped out in a few terrible moments. His parents and sister all slightly injured are at the neighbors. What happens now, the boy asks himself.

Wherever it is needed Red Cross lends a helping hand, to a family overwhelmed by misfortune, or natural catastrophe, or to an entire nation.

Almost everyone is familiar with the large disasters which have occurred in this country and abroad, but few people realize that Red Cross usually is called upon to assist in over 1,000 minor disasters in this country each year. For example, here in Saskatchewan during 1953, over 400 persons who were victims of some 87 fire disasters were aided with bedding, clothing, food, medicines and supplies. The local Red Cross representatives report the emergency needs of the stricken families to Red Cross Headquarters in Regina. Emergency supplies are shipped

distributed free to destitute and needy people in other countries. They also made 2,000 garments which were given to needy children in this province. The cost of the materials was over \$20,000 which means that skirts, shirts, dresses, pyjamas, socks, etc. were made for approximately 50 cents per garment.

There is a great need for this type of voluntary work which may be done in the individual home. The women's workroom headquarters in Regina supplies the material already cut or the wool for knitting with complete directions. The workroom Directors would welcome enquiries from interested groups.

After the Annual Meeting, which is held in February each year, a 100 page annual report is published which details all the work and includes the financial statements. These reports are mailed to all Branches and newspapers. Individuals may secure copies from the Headquarters Office in Regina.

3079

THE ALBERTA LEGISLATURE

The Alberta legislature began the debate on Premier E. C. Manning's record \$205,000,000 budget last week.

Liberal and opposition leader J. Harper Prowse launched the opening attack on the government's spending program Monday. He was followed by CCF leader Elmer Roper and progressive Conservative spokesmen. Several government back-benchers and cabinet ministers joined the debate during the week.

Prowse began the debate by charging the government with failing to accept its responsibility to the municipalities. He said the government is paying off its debts at the expense of local governments and repeated an earlier proposal for a royal commission investigation into municipal affairs. He said the government has paid off \$59,000,000 in public debt since 1944, but at the same time the municipalities had increased their debt to financial agencies other than the govern-

ment by \$56,500,000.

Paul Brecken (PC Calgary) was in concurrence with the Liberal leader's views on the municipal problem. Brecken objected to the distribution of provincial revenues, particularly with regard to municipal grants. He said the municipalities were nothing but "children" of the government. He said Premier Manning's proposed 'citizens' dividends should be turned over to municipalities.

CCF leader Roper highlighted his contribution to the debate with a call for redistribution of provincial ridings to give Edmonton and Calgary more representation. He said each of the 61 seats had an average of 16,500 constituents. But he said the multiple member Calgary riding has a population of about 150,000 persons, giving the six members 25,000 constituents apiece. He said Edmonton's seven members are responsible to an average 28,500 persons each. He said at least 12 members for Edmonton and 9 for Calgary would make the distribution fair in relation

to the rural ridings.

From the government side of the house came announcements concerning a 143,000 square mile forest inventory, a federal-provincial plan to aid the physically handicapped, the pollution of the North Saskatchewan river and polio.

Lands and forests minister Ivan Casey said the forest inventory had cost the province about \$1,160,000. He said most of the survey has involved the aerial mapping of nearly all of Alberta's forest land.

Welfare minister R. D. Jorgenson announced the setting up of machinery to administer a federal-provincial plan to aid the physically handicapped. He said a co-ordinator and a three-man committee will soon be appointed to administer the project which will be financed by the federal and provincial governments on a 50-50 basis.

Mr. and Mrs. W. R. Suelzle were visiting with relatives in Calgary over the weekend.

Level Land

Mr. and Mrs. Dan Tetz of Hanna were visiting with the S.D.A. Church and house guests of Mr. and Mrs. Roy Schaber.

Mrs. Bill Oliver and daughter of Peace River are visiting at the home of Mrs. Oliver's parents, Mr. and Mrs. Jake Gimbel.

An offering taken in the S.D.A. Church on March 13th is to go towards rehabilitation work in Korea. A similar offering was taken in all North American S.D.A. Churches on the same date with the aim of raising \$500,000.

Many friends of the district attended the funeral of the late Adam Ohlhauser Friday, March 12th.

The Dorcas members were together on the evening of March 13, and made a quilt for the Red Cross. They also made arrangements for serving lunch at two auction sales.

Several families of this district attended the program in Carbon March 14th presented by the Drumheller Mixed Choir. This program went over very well and was enjoyed by all present. No one in the district should have missed this program.

Family Service

Extraordinary demands are often made on a publication which makes real friends of its readers, according to the Family Herald and Weekly Star, which has prided itself on maintaining such a relationship to an unusual degree. Many things are asked of it, the Family Herald says, which readers would ordinarily never think of asking. One example is a request from a reader in England to have someone make a personal investigation and report on the health of her uncle in Nanaimo, B.C. She had not heard from him in two years.

While such requests cannot always be satisfied because they would require facilities which are not available, the Family Herald points out, all efforts are made within reason to help the enquirer. Readers are regarded as members of the Family Herald family and their problems are therefore deserving of sympathetic attention. Consultation and similar reader services have been provided by the Family Herald for many years, covering subjects which range from animal diseases to the obtaining of words and music to long-forgotten songs. Letters to these departments were written by approximately a quarter of a million Family Herald readers during 1953.

In this way, the Family Herald points out, its readers are given more than the usual entertainment and information provided by magazines, and tend to feel like members of a genuine "family". Like members of a family, they are quick to express likes and dislikes, they scold and encourage, ask for advice and give it as well, and continually impress on the publishers their feeling that the magazine really belongs to its subscribers.

A lot of work? The Family Herald admits it is, but they feel that the unusual warmth of response they receive from their readership makes it well worthwhile.

The English lady's uncle in Nanaimo? He was fine. She had been using a wrong address.
